

EQUATORIAL AUDIO

Equatorial Latitude Verifier

Paper sextant • Essential for warranty compliance

WARRANTY COMPLIANCE CHECK

Sight Polaris through the eyepiece tube. If Polaris is visible, you are not at the equator and your warranty may be void. At true 0°, Polaris sits on the horizon.

Southern hemisphere users: sight Sigma Octantis instead. Same principle applies.

TAB A — fold & glue to arm

TAB B — fold & glue to arc

TAB C — eyepiece tube (roll)
